## Automann adds Neapco Driveline Parts

Automann is pleased to announce the addition of Neapco to its offering.

Neapco is the leading supplier of innovative driveline solutions to original equipment manufacturers and the global automotive industry. Neapco designs, manufactures and distributes high quality, cost-effective OEM and aftermarket driveline products for automotive, light truck, heavy truck, off-road, off-highway, agriculture and industrial applications.

Neapco's rich history of excellence, diverse product lines, engineering expertise and integrated manufacturing capabilities define the company's competitive advantage. All Neapco products are precision engineered and manufactured to exacting tolerances in state-of-the-art plants in North America, Europe and Asia to deliver premium performance—even in the world's most demanding environments.

Founded in 1921, they're Globally accepted as major OE supplier. Consistently awarded new OE contracts. Recent \$10MM+ commitment to testing and engineering facilities.

Highlights of the initial Neapco 156 part number driveline offering:

- Commercial Heavy Duty Vehicle
- Power Take-off
- Performance "Beast Mode Series"
- Light & Medium Duty
- Agricultural
