Automann adds Deflecto Brand Made in USA Emergency Warning Triangle Kit

Automann is pleased to add Deflecto's DOT certified warning triangle kit to its offering. With over 60 years of industry experience, Deflecto has established itself as the market leader in manufacturing warning triangles for trucks and fleets.

Deflecto's commitment to excellence is evident in their extensive engineering and in-house testing processes. Their products undergo rigorous endurance cycles to ensure superior performance and reliability.

To guarantee compliance with DOT warning device requirements, Deflecto tests every production run with state-of-the-art wind and light tunnels on-site at their Dover, OH facility. Kits are subjected to 40mph wind speeds in 10 different orientations, and tested for reflectivity and luminance, ensuring each production run meets or exceeds standards outlined by FMVSS-125.

Key features and highlights of the Emergency Triangle Kit include:

- Meets or exceeds DOT standard FMVSS-125
- Highly visible fluorescent orange body with red reflectors stands out day or night
- Simple folding design allows for compact storage and rapid deployment
- Weighted, non-skid base provides exceptional stability in high winds
- Kit includes three warning triangles and compact storage box
