## **Automann Announces Successful Recertification of ISO 9001:2015**

December 2023, Automann is pleased to announce they recently passed an ISO 9001:2015 recertification audit. This ISO designation recognizes the design, contact manufacturing and distribution of aftermarket truck parts at each of our locations.

Automann USA has been ISO Certified since 2001 and this recertification confirms the ongoing commitment to the efficiency and quality of Automann's standards. Completing the ISO 9001:2015 recertification included a thorough vetting and examination of Automann's Quality Management System (QMS) and its dedication to exceeding customer satisfaction and pledge of continuous improvement.

*"We are very focused on our operations and this ISO certification provides a level of confidence to our distributors that we have the tools in place to ensure ongoing quality and consistency—and that we are committed to continuous and proactive improvement throughout Automann."*

CJ Khanduja - Vice President of Automann

Copies of this certificate are available on our website or by contacting our quality department.

### **About Automann**

Family-owned and customer-driven since 1994, Automann has become a global leader of heavy-duty truck and trailer parts. Automann offers an ever-expanding catalog of over 40,000 parts across 18 product categories. The company's product portfolio includes both Automann-branded products and a growing collection of leading brand names. With six strategically located distribution centers across North America, Automann collaborates with an extensive distributor network to provide garages, fleets, and end-users with quality replacement parts promptly and at exceptional value.
