Automann Addresses Removal of Grommet Mounted Lights

Automann is pleased to announce the addition of a removal tool for those pesky “Grommet Mounted” lights. Sometimes referred to as: Round Marker Lights, Dime Lights and Trailer Lights, these lights can be a challenge for technicians to remove, especially when mounted 10 feet up with no rear trailer access.

The tool is made of stainless steel in the USA and is the invention of a counter person, who is an Automann Customer.

No more using a screwdriver and destroying the mounting surface. Eliminates the extended labor time spent, prying over and over, to pop off the lights.

Its as easy as 1...2...3.

About Automann

Family-owned and customer-driven since 1994, Automann has become a leader for global distribution of heavy-duty truck and trailer parts. Automann offers an ever-expanding catalog of over 40,000 parts across 18 product categories. The company's product portfolio includes both Automann-branded products and a growing collection of leading brand names. With six strategically located distribution centers across North America, Automann collaborates with an extensive distributor network to provide garages, fleets, and end-users with quality replacement parts promptly and at exceptional value.
