## Automann adds Fiamm Truck Horns

Automann kicks off new partnership with Fiamm Componenti Accessori (F.C.A.), the global leader in the production and supply of horns for the safety of vehicle and people. With a worldwide presence in manufacturing and commercial business, Fiamm is a leading research and development company with a commitment to quality and excellence that maintains customer satisfaction at the highest level.

These characteristics are reflected in the reputation of the brands Fiamm and Klaxon with several manufacturing facilities strategically located throughout the globe to accommodate the needs of our automotive customers. This allows Fiamm to produce close to our customers thus maintaining cost competitiveness and logistical flexibility. The significant automation of the production process guarantees the repeatability and control of the different assembly operation of the components.

Fiamm products integrate the demands of the productive system from conception allowing the company to offer cost savings and unique quality benefits. Headquartered in Vicenza, Italy, they have been in business since 1942. They boast an impressive list of Automotive OE customers in Europe and the United States. Specific to our market channel are Caterpillar, Iveco, Scania and Volvo. Certifications included ISO9001-2008, ISO/TS 16949-2009, ISO 14001-2004.
